Karnataka Coffee Exporters | Arabica & Robusta Green Coffee Beans | Susha Groups India

🔹 Meta Description:

Leading Karnataka coffee exporters supplying premium shade-grown Arabica and Robusta green coffee beans worldwide. Bulk export, ICO standards, seamless global logistics.

H1: Karnataka Coffee Exporters – Premium Arabica & Robusta from India

Mist-Covered Ghats to the Global Cup

Susha Groups is a name when it comes to exporting coffee from Karnataka. They sell good coffee beans that are grown in the shade. These coffee beans are Arabica and Robusta. They are green. Susha Groups gets these coffee beans from the farms in Coorg and Chikmagalur. They are good quality because they are grown in a special way. Susha Groups is a leading exporter of coffee, from Karnataka.

We sell a lot of coffee to companies that make coffee in countries. These companies are, in Europe, North America and the Middle East. They use our coffee to make their products. We work with coffee makers, people who sell coffee and companies that want to make their own coffee brands. We export coffee to these international coffee roasters, distributors and private-label brands.

H2: Why Karnataka Coffee is Globally Preferred

Karnataka is the place where most of Indias coffee is grown. In fact it produces over 70 percent of the countrys coffee. The coffee from Karnataka is really well known over the world for being very good quality. This is because the coffee plants are grown in the shade in the Western Ghats region, which's a very special place, with a lot of different plants and animals. Karnatakas coffee is special because it is grown this way.

H3: 100% Shade-Grown Coffee Beans

Our coffee grows under a kind of forest with two layers of trees. This helps the coffee cherries ripen slowly and gives our coffee a rich flavor. Our coffee gets to mature and that is what makes the flavor of our coffee so complex and nice.

H3: High-Altitude Arabica & Robusta

Sourced from estates between 800–1,500 meters above sea level, ensuring:

Superior bean density

Bright acidity

Balanced body

Distinct regional flavor profiles

H2: Quality Assurance – Reliable Coffee Export from India

We are coffee exporters from India. We make sure that we follow all the rules when we send coffee to countries. We also make sure that people always get the coffee they need from us the coffee exporters from India, on a basis.

Strict grading aligned with International Coffee Organization standards

Moisture testing & density control

Batch traceability

Export documentation compliance

H2: Global Shipping & Logistics

We work from New Mangalore Port. We do the following things:

FOB & CIF pricing

Container load optimization

Phytosanitary certification

Timely global dispatch

🌿 ABOUT US PAGE (SEO OPTIMIZED)

🔹 Meta Title:

About Susha Groups | Indian Coffee Export Company | Karnataka

🔹 Meta Description:

Susha Groups is a company from Karnataka in India. They sell coffee to countries. Susha Groups helps small coffee planters sell their coffee to people around the world who really like special kinds of coffee. They do this in a way that's good for the earth and they are very careful about how they send the coffee to other countries. Susha Groups is really good, at getting coffee from these planters to the people who want to buy it.

H1: Leading Indian Coffee Export Company from Karnataka

Susha Groups brings together the way of growing coffee with the new way of selling it all around the world. They connect the people who grow coffee to the people who buy it. Susha Groups does this by being part of the trade of coffee.

We are based in the Western Ghats and our goal is to help farmers who grow specialty coffee. These specialty coffee farmers are very small. We want to connect them with people all around the world who love specialty coffee. Our specialty coffee is very good. We think people will really like it. We want to make sure these small specialty coffee farmers can sell their coffee to people, in countries.

H2: Direct Trade Coffee Exporters

We work directly with -generational farmers in:

Coorg

Chikmagalur

Hassan

We make sure that farmers get a price for what they produce and buyers around the world get a steady supply of food. This happens because we do not use systems to buy and sell things. We want farmers to get prices for the things they grow.. We want global buyers to have a stable supply of food. This is very important, for farmers and global buyers.

H2: Modern Export Infrastructure

Advanced curing facilities

Blockchain-enabled traceability

Export-grade packaging

Shipment integrity via New Mangalore Port
